TESTIMONIALS

**Nandini**

★★★★★

I remember exactly one year ago, amongst all the bewilderment of the upcoming placement season, I came across the solution to all my dilemmas, "Learn Analytics – the Analytics Way" by MAS and joining it was the key turning point in my placement journey. From making us practice numerous problems for clearing tests to raising our confidence levels before the final interviews, MAS has assisted me with the best frameworks, systemized my preparation process, supported me with full zeal and enthusiasm, and provided me with a healthy and competitive environment to stay calm and motivated throughout the placement journey. Thanks, MAS for providing the best mentors anybody could ever ask for.

**Nallani Harsha**

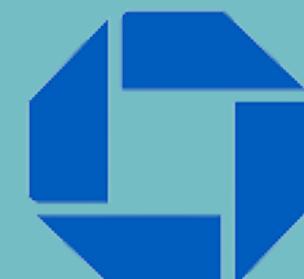

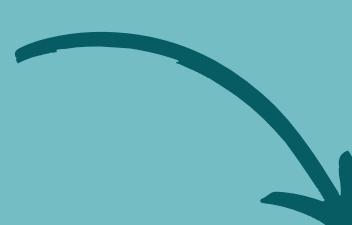

★★★★★

Like any other final yearite, I was skeptical and restless about my placements. And then I came across MAS which changed this all for good. I just wanted to share a quick note and let them know that they did a really phenomenal job and I can't thank them enough for everything. I'm glad I decided to join the MAS family. Their help has made a significant impact on my interview preparation. They made it so simple. MAS curated the best possible roadmap, showered us with best resources, created a healthy competitive atmosphere with the best-of peers and had been the emotional pillar in the times of self doubt. And I won't shy away from saying that My Analytics School played a huge role in my success.

★★★★★

From the text on Day 1 of MAS101 that was somewhat on the lines of 'I am so scared and clueless, I really need some guidance' The whole team of My Analytics School helped me get to the point where on 30th November I remember saying 'Don't worry sir, by the end of the day tomorrow I will have an offer letter'. With a very exhaustive, and well curated timeline, covering every topic with ease and never for once making us feel overburdened, or overworked, and most importantly, creating an environment of healthy competition where all of us kept each other motivated to keep going, My Analytics School helped us in every way possible. Joining MAS was one of the best decisions that I made.

TESTIMONIALS

Bharat Bhusan Rath

Back in August, I was so underconfident to sit in the placements that I was contemplating a dual-degree program. I had some experience in the field of Data Analytics, but all I needed was a little push. That was when I joined MAS101. The entire team of MAS guided me through the placement season, who created a well-crafted timeline and provided necessary study materials. They also made sure that I followed the timeline and constantly kept a check on me. In a matter of three months, I went from being completely clueless and underconfident to being able to realize my value. MAS created an atmosphere where each and every one of us enjoyed the challenge of the placement season. Joining MAS truly opened my eyes. Thanks MAS in every possible way.

Dhvani Shah

Being with MAS, my placement prep has been a cake walk. From being skeptical about myself to gaining confidence in myself, the journey has been nothing but exhilarating. The step-by-step curated preparation timeline covering A to Z of skills requirement starting from test preparation to interview preparation made the entire 4 months of my placement prep a very worthy one. Needless to say, joining MAS was one of the best decisions I ever made. The entire team of MAS helpful and supportive and I could not have asked for better mentors. Thank you MAS!

Mayukh

Let's start with my role. I applied for SDE positions during my internship, then I pursued it, it was something that I felt wasn't the best for me and then I decided to join MAS. And I got placed! So you can imagine how accurate and valuable this program was, literally at every step. I'm grateful to Team MAS. I clearly remember the mentors even dictating the blanks and commas on my resume! And to be honest, there were difficulties in the journey and I wanted to let go, but "My Analytics School" kept pushing me, and the affirmative miracle indeed comes at the last moment, just don't give up!

ABOUT US

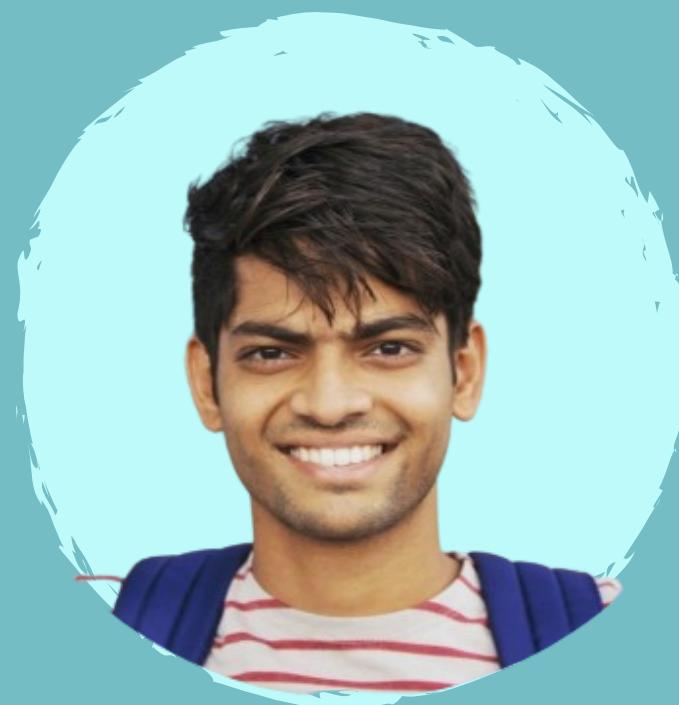

We are an emerging EdTech start-up founded by IIT BHU alumni aimed at bridging the gap between freshers and their dream careers.

We provide an end-to-end meticulously curated solution for placement preparation in the booming domains of Analytics, Consulting, and Data Science. Our offerings include but are not limited to Company Test Preparation, Skill Set Amplification, Non-Tech Proficiency, Group Discussions, and Mock Interviews.

OUR MENTORS

Everything seems difficult without a guiding friendly face, and therefore we have the choicest mentors on board to help us do what we do best - provide top-notch mentorship.
